# ACTIVITIES

## Western Isles Hotel

### WILDLIFE

Mull's Eagles are famous around the world, but we also have Otters and a host of fascinating wildlife both ashore and out to sea. To organise a tour just ask reception for contact details - or jump in the car and explore!

### HISTORY

Rich in heritage, Mull has a lot to offer all budding historians. Catch the ferry over to the Isle of Iona to see the gorgeous Abbey there or travel up north to the spectacular Duart Castle.

### GO FOR A WALK

With plenty of walking trails on offer, give the car a rest and explore the Island on foot. A short distance from the hotel we have two spectacular walks, one up to the lighthouse, and the other heading south to Aros Park and the waterfalls. For more walks around the Island inquire at reception.

### RELAX ON THE BEACH

If the weather is kind enough there are a few beaches around the island with stunning views and clean clear waters. Check out Calgary beach for some epic scenery.

### MULL THEATRE and MUSEUM

The Mull Theatre have put on some world class performances - ask at reception for "Whats On". The Museum in Tobermory is fascinating too, with an interesting insight into the islands past.

### MARINE LIFE

Mull boasts an impressive array of marine mammals and fauna. Keep your eyes peeled for Seals, Otters, Minke Whales, Humpback Whales, Dolphins and of course Basking Shark. If you'd like a closer look, book a boat tour around the island!
